T3 Staffing specializes in placing skilled professionals into contract and direct-hire positions. Candidates of T3 Staffing have a wide range of skill sets in several specialized areas including OSP; cable; central office; wireless; structured cabling & wiring; and fiber optics.

Area Manager Matt Enos is new to Eastridge, and has joined forces with T3 Staffing as his exclusive focus. With over eight years in the telecommunications industry, Enos has staffed projects for high-profile organizations on a regional and national level.

"T3 Staffing has assembled a solid team of seasoned recruitment specialists to represent the industry's top talent, with special attention paid to finding an ideal fit for both our client organizations and candidates, where needs are met on both ends," says Enos.

Its relationship-driven approach to business is what sets T3 Staffing apart, says Enos. Striving to create long-term relationships with its clients and candidates, T3 Staffing prides itself on follow-through, communication and integrity.

"Because we strive to understand the needs of our candidates, we are able to place them in positions that fit their lifestyle and experience," says Enos. "And because we take the time to familiarize ourselves with the needs and culture of our clients, we can be confident that each person we place will be the right fit."
